an✦tyss

US-Based Consulting Firm Attains 60% Faster Turnaround Through Agile Program Management and Business Analytics

Client Introduction

A renowned business and technology advisory company that offers systems, compliance, and quality-related solutions to life sciences organizations.

Problem Statement

- Cost overruns due to unclear specifications and requirements in the procurement lifecycle
- System and people integration issues during Mergers and Acquisitions (M&As)
- Unstructured and unorganized datasets with a lack of on-demand reporting

Solutions Offered

"Agile" solution approach based on integrating program management, due diligence, and business analytics. Anaptyss relied on its Digital Knowledge Operations (DKO)™ framework to ensure targeted and customized delivery of the extensive solution.

Key solution delivered:

Agile and sustainable procurement to speed up sourcing.

Cohesive M&A approach based on people and cultural sensitivity.

Power BI® deployment to extract business insights.

Seamless integration with Salesforce, FinancialForce, & more.

Business Outcomes

60% reduction in the turnaround time

50% savings in the man-hours

Effective risk mitigation
